

The FireGrip Structural Glove FC-P4000

- Our Porelle[®] FR moisture barrier is independently certified by SEI to be compliant with 1971 NFPA Standard, 2018 edition. It allows your hands to expel moisture and still protects them from chemicals and blood pathogens and is **PFAS free**.
- TPP exceeds 60
- Superior design allows dexterity with no excess fabric in finger tips
- Excellent thumb rotation
- Minimum seam stress in the palm
- Cowhide leather
- Secure grip wet or dry
- Cadet and special sizes available at no extra cost
- SEI certified compliant with NFPA 1971-2018 Edition

Wristlet Option:

The FireGrip Structural Fire Glove FC-4000W offers the added protection of a Kevlar[®] wristlet

Built in cuff tab to ease putting on glove

Porelle[®] is a registered trademark of PIL Membranes LTD

The FireGrip Structural Fire Glove

FC-P4000/4000W SPECIFICATIONS

I. Construction

- a. This five-fingered glove is constructed using a modified gunn-cut pattern with a straight thumb, resulting in wide thumb rotation and minimum seam stress at the base.
- b. Outer shell: suede leather from cowhide, treated to resist moisture and flame.
- c. Moisture barrier: Porelle® FR moisture barriers are used to provide durable protection against water, chemicals and blood-borne pathogens.
- d. Moisture barrier is independently certified by SEI to meet 2018 NFPA® standards.
- e. Moisture barrier inserts are securely attached to the shell to prevent inverting (pull-out).
- f. All seams are lock-stitched, with 10 stitches per inch, using DuPont™ Kevlar® 30/3 spin yarn aramid thread for greater strength against heat and cut.
- g. Elastic snugger band is used on BOTH palm and back of glove to provide secure fit, utilizing zigzag stitch for greater stretch capability.
- h. This glove is available in 16 sizes (see below). Proper sizing allows the tips of user's fingers to extend to end of the glove for enhanced dexterity and safety. Also available in cadet sizing, which features finger lengths ½-inch shorter than regular sizes.
- i. Each pair of gloves is individually poly-bagged, along with maintenance and inspection instructions.
- j. Certified by SEI to comply with NFPA 1971, 2018 Edition. Meets FED OSHA 1910.156 (e)(4) and Cal/OSHA Title 8 Section 3407
