

# FireCraft® 9000 GLOVE

## FireCraft® 9000 NFPA 1970-2025 (NFPA 1971) Compliant Gloves

This structural fire fighting glove is the culmination of two years of development and extensive field testing. The 9000 combines a durable leather palm with a silicone-treated Kevlar® back. The result is a hybrid glove that will withstand the rigors of training as well as field operations.

### Features of the FireCraft® 9000

- Heavier palm leather, silicone treated Kevlar® back
- New fingertip design improves task performance
- Larger, more functional pull-tab/hang loop for easier donning
- 'Slip-Grip' palm patch for more secure grasping
- Enhanced insulation on the palm side
- Full leather fourchettes and knuckle protector for longer glove life
- Best overall performance we have ever offered in a glove
- Available in our standard 36 sizes that ensure a comfortable fit
